# Ocean Glow Masks

It's obvious — you're glowing

# Beauty Routines from Ancient Times:

how people used to take care of their faces

~3000 BC

## Egypt

Applied essential oils for moisturizing the skin and an anti-aging lotion based on fenugreek oil

## India

Used Ayurvedic practices with natural masks and cloth patches

## China

Used silk masks soaked in herbal infusions and skin-brightening agents

## Greece

Used white lead and chalk, as well as mixtures of berries and milk for skin treatment

~1800 AD

## Roman Empire

Focused on daily washing with olive oil, removed with a strigil — a crescent-shaped scraper

## Elizabethan Era

Applied lead to reduce pigmentation, carbonate and sodium hydroxide for cleansing and exfoliation, and washed with rainwater, donkey milk, and red wine

## Modernity

(The birth of skincare culture) started using creams, masks, and other care products created by global cosmetic companies

One of the most popular skincare formats is

## Single-use Sheet Masks

Their use has become a favorite for many, and here's why:

- Easy and convenient to use
- Intensely nourish the skin with active ingredients
- Provide quick results
- Make self-care enjoyable

Modern masks are most often made from the following materials:

Hydrogel

Cotton

Viscose

Cupro\*

Tencel\*\*

Microfiber

\*material from fibers left after processing cotton

\*\*a type of lyocell fiber derived from eucalyptus wood

Despite this range of materials, they share common disadvantages:

- Do not fit tightly against the skin
- Do not ensure even distribution of active ingredients
- Are not decomposable

# Biocellulose

A cutting-edge material for creating masks

Initially developed for medical purposes to treat burns, it aids in tissue regeneration<sup>[1]</sup>.

Its strength and elasticity make it an ideal base for cosmetic masks.

# A “Second Skin” Effect

# The size of biocellulose fibers is smaller than the size of epidermal pores

- Tight adhesion to the skin
- Perfectly conforms to the unique contours of your face
- Effectively delivers active ingredients

Biocellulose masks absorb and retain up

to **3** times

more serum compared to masks made from other materials†\*

†\*Based on internal research by the manufacturer  
TCI Biotech

# Biocellulose masks — a 100% biodegradable product†\*

Natural biocellulose fibers are grown in a bioreactor, where *Acetobacter xylinum* bacteria ferment coconut juice, lactic acid, or other plant-based components, allowing the material to decompose well in the soil.†\*

†\*Based on internal research by the manufacturer TCI

Coral Club presents a line of biocellulose masks  
for all skin types

# Ocean Glow Masks

# Lipomask™

Liposomes at the service of beauty

Biocellulose masks Ocean Glow use LipoMask™ technology, which supports enhanced delivery of active ingredients through liposomes.†

# 10 times

deeper penetration of active ingredients (compared to non-liposomal masks)†\*

Based on internal research by TCI†\*

# LipoMask™ Technology: How It Works

Liposomes and cell walls share the same structure. When a liposome approaches a cell, its shell merges with the cell membrane, creating a channel through which the mask's active ingredients enter directly into the cell. This:

- Maintains the stability of the mask's active ingredients†\*
- Allows for faster and deeper skin penetration†\*

\*Based on internal research by the manufacturer TCI †\*

# Masks created with LipoMask™ technology

improve skin quality more effectively compared to regular masks\*

Results after 4 weeks of use

● Non-liposomal mask

● LipoMask™

# Environmentally Sustainable Production

Ocean Glow Masks are manufactured in Taiwan at TCI's high-tech facility

70%

The energy consumed in production comes from renewable solar energy

500

Solar panels on the facility's roof help reduce tons of carbon dioxide emissions annually

# Ocean Glow:

## Three Steps to Beauty

### Hydro Boost

Biocellulose facial mask

SEA WATER | 30 HYALURONIC ACID | AMINO ACIDS  
POSTBIOTIC | SEAWEED

5 - 25 ML (0.85 FL. OZ.) SACHETS  
NET 125 ML (4.23 FL. OZ.)

Hydro Boost  
Deep Hydration\*

coralclub

### Advanced Collagen

Biocellulose facial mask

SEA WATER | MARICOLLAGEN | PEPTIDES |  
HYALURONIC ACID

5 - 25 ML (0.85 FL. OZ.) SACHETS  
NET 125 ML (4.23 FL. OZ.)

Advanced Collagen  
Intensive Nourishment\*

coralclub

### Skin Harmony

Biocellulose facial mask

SEA WATER | MORINGA SEED EXTRACT | POSTBIOTIC  
SEAWEED | CERAMIDE 3

5 - 25 ML (0.85 FL. OZ.) SACHETS  
NET 125 ML (4.23 FL. OZ.)

Skin Harmony  
Gentle Restoration\*

# Ocean treasures make up the foundation of Ocean Glow Masks

The seawater in Ocean Glow Masks contains minerals and trace elements for healthy, radiant skin. Whether your goal is anti-aging, hydration, or detoxification, each mask naturally supports your beauty.\*

## Minerals

(magnesium, calcium, potassium)  
hydrate and help strengthen the skin.\*

## Exopolysaccharides

are produced by marine microorganisms, they protect the skin from harmful external factors, soften it, and reduce the appearance of fine lines and wrinkles.\*

## Antioxidant Components

are derived from algae extracts, they provide antioxidant components to help combat oxidative stress and may support collagen synthesis.<sup>[2].\*</sup>

# Advanced Collagen

Biocellulose mask with seawater, collagen tripeptides, HAPA-5 peptides,  
and Argireline\*

Advanced Collagen

coralclub

Helps reduce the appearance  
of the amount and depth of  
wrinkles.\*

Helps support skin elasticity  
and firmness.\*

Supports the body's natural  
collagen production.\*

Advanced Collagen

The Advanced Collagen mask is inspired by an inhabitant of the depths of the oceans — the blue-ringed octopus.

## HAPA-5

The HAPA-5 peptide is a synthesized analog of a component in the secretion of the blue-ringed octopus and has unique properties:

- Quickly and effectively penetrates into cells, delivering accompanying active ingredients\*
- Helps smooth the appearance of fine lines and wrinkles.\*
- Helps protect cells from free radicals.\*
- Supports natural collagen production\*

## HAPA-5: Proven Effectiveness

Week 0

Week 4

**14.2%**

Reduction in wrinkles after 4 weeks

Week 0

Week 4

**13.2%**

Increase in skin elasticity in just 15 minutes

## Argireline

The Advanced Collagen mask contains the peptide Argireline, often compared to Botox for its skin-smoothing benefits.

This peptide is designed to penetrate into various skin layers, which:

- Helps reduce the appearance of wrinkles.\*
- May help prevent the appearance of new wrinkles.\*<sup>[3,4]</sup>

# The Most Advanced Collagen Source\*

The Advanced Collagen mask includes an innovative component— Maxicollagen.\*

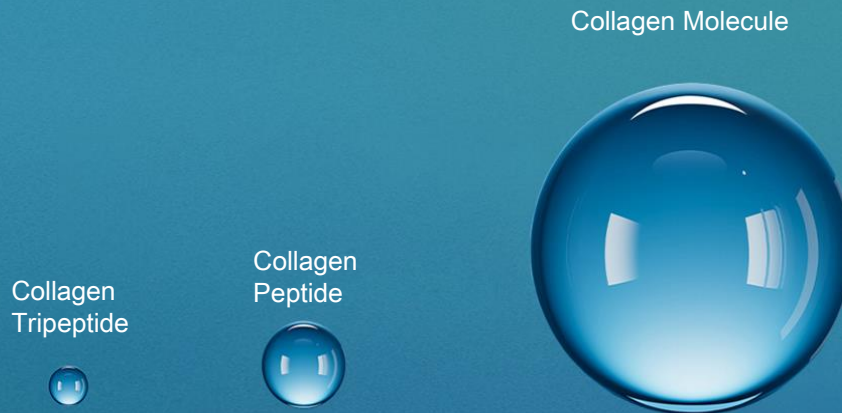

- Tripeptide
- Marine-based
- Low molecular weight

# Size Matters

Maxicollagen tripeptides are short sequences of three amino acids: glycine, proline, and hydroxyproline

- Helps enhance skin elasticity and firmness\*
- Provides active moisture to the skin\*
- Helps even out skin tone\*<sup>[5]</sup>

4 times 600 times

smaller than a peptide  
molecule

smaller than a collagen molecule

# Advanced Collagen Mask

Component synergy to support a youthful appearance\*

Marine Water

Maxicollagen Tripeptides

HAPA-5 Peptide

(mimics the secretion of the blue-ringed octopus)

Plant Lipids

Hyaluronic Acid

Argireline Peptide

(noninvasive, often compared to Botox for skin-smoothing benefits\*)

Reduces the appearance of the number and depth of wrinkles.\*

Contains Argireline, often compared to Botox due to its skin smoothing benefits.\*

Helps enhance skin elasticity and firmness.\*

Suitable for pescetarians

# Advanced Collagen Mask

Component synergy to support a youthful appearance.\*

Over 90% natural ingredients\*

coralclub

Biocellulose that forms a "second-skin--like" effect.\*

Stimulates natural collagen synthesis\*

Utilizes technology designed for deep penetration of active ingredients.\*

Lipomask™

# Hydro Boost

Biocellulose mask with seawater, 3D hyaluronic acid, seaweed, and a metabiotic\*

Hydro Boost

coralclub

Helps slow down  
photoaging\*

Helps soothe and hydrate  
sensitive skin, promoting  
smoother texture.\*

Deeply hydrates the skin\*

Hydro Boost

# Hyaluronic Acid in all its Diversity:

Provides unparalleled hydration<sup>[6]</sup> †

## Hyaluronic Acid

Draws water from the mask serum and the environment, increasing skin elasticity\*

## Sodium Hyaluronate

Retains water in the deeper layers of the skin, enhancing firmness\*

## 3D Hyaluronic Acid †

Holds 5 times more water and provides prolonged hydration, gradually releasing accumulated moisture\*

† Crosspolymer of sodium hyaluronate

Hydro Boost

coralclub

# Seaweed

## Brown seaweed extract

*Ascophyllum nodosum*

Hydrates cells and has antioxidant properties<sup>[7]\*</sup>

## Green seaweed extract or "sea grape"<sup>\*</sup>

*Caulerpa Lentillifera*<sup>\*</sup>

Increases skin moisture content and helps prevent photoaging<sup>[8]\*</sup>

# Metabiotic†

## Filtrate of Halobacillus bacterial lysate

Halobacillus inhabit extreme environments — such as salt lakes or other bodies of water with high concentrations of salt — and can produce a substance called ectoine, which:

- Helps the skin retain moisture<sup>[7]\*</sup>
- Fights photoaging<sup>[8]\*</sup>
- Soothes the skin<sup>[9]\*</sup>

A metabiotic is a biologically active compound that is a byproduct of bacterial life and has beneficial properties for humans.†

# Hydro Boost Mask

Synergy of Components for a Fresh Effect\*

Seawater

3D Hyaluronic Acid

(a crosspolymer of sodium hyaluronate)

Metabiotic

Panthenol

Seaweed Extracts

Amino Acids

Contains metabiotic that helps retain moisture\*

Helps soothe and hydrate sensitive skin, promoting texture.\*smoother

Helps enhance skin elasticity and firmness\*

Contains no animal-derived ingredients\*

# Hydro Boost Mask

The synergy of active components promotes a refreshed and revitalized skin appearance.\*

Over 90% \*natural ingredients\*

coralclub

Biocellulose that forms a "second skin-like" effect

Utilizes technology designed for deep penetration of active ingredients\*

Lipomask™

Helps protect the skin from signs of photoaging\*

# Skin Harmony

Biocellulose mask with seawater, metabiotics, ceramides, moringa seed extract, and seaweed extracts\*

Skin Harmony

coralclub

Provides  
a soothing effect\*

Helps improve skin texture  
and even out skin tone\*

Protects skin from  
environmental stressors\*

Skin Harmony

# Plant-based Superfood Complex

**Moringa Seed Extract**  
Moringa Pterygosperma

Helps protect the skin from harmful environmental factors<sup>[10]\*</sup>

**Brown Seaweed Extract**  
Sargassum Glaucescens

Helps retain moisture in the skin <sup>[11,12]\*</sup>

**Spirulina Extract**  
Spirulina Platensis

Has antioxidant properties, helps protect the skin from signs of photoaging, and supports the skin's natural renewal process<sup>[13]\*</sup>

# Metabiotics†

## Deep-sea Bacterial Enzyme

Alteromonas Ferment Extract

Forms a protective barrier on the skin's surface and helps defend against environmental pollutants, including heavy metal ions<sup>[14]\*</sup>

## Lactobacillus Ferment

Lactobacillus Ferment

Helps maintain skin microbiome balance and soothe the skin<sup>[15]\*</sup>

A metabiotic is a biologically active compound that is a byproduct of bacterial life, with beneficial properties for humans†.

# Ceramides

The Skin Harmony mask supports skin health with ceramides. These "smart fats" are part of the epidermis and, when applied topically, help:

- Strengthen the skin's protective barrier against environmental stressors<sup>[16]\*</sup>
- Retain moisture for smoother, softer skin<sup>[17]\*</sup>
- Soothe the appearance of visible redness and irritation<sup>[18]\*</sup>
- Improve skin elasticity and reduce the appearance of fine lines<sup>[19]\*</sup>

# Skin Harmony Mask

Synergy of components to support skin's natural cleansing process.\*

Protects skin from environmental stressors\*

\*Contains ceramides that help retain moisture\*

Helps increase skin elasticity and firmness\*

Contains no animal-derived ingredients\*

# Skin Harmony Mask

Synergy of components to support the skin's natural purification process.\*

Over 90% natural ingredients\*

coralclub

Biocellulose that forms a "second skin-like" effect\*

Technology designed to enhance the delivery of active ingredients to the skin\*

Lipomask™

Provides a soothing effect\*

For healthy, well-cared-for skin with Ocean Glow Masks, we recommend using the masks on properly cleansed skin:

**2-3 times**

per week

**15-20 minutes**

in the evening, preferably after a shower

# Ocean Glow Masks

Your New Favorite Beauty Ritual

When your skin needs a “sip” of moisture:

After sun exposure, a party, or a day spent in a dry environment\*

When you want a youthful glow:

At the first signs of aging and for regular care of mature skin

When your skin feels stressed:

After a flight, a cold-weather outing, or makeup experiments\*

Premium beauty ingredients

# Ocean Glow Masks

It's clear — you're glowing

Over 90% natural ingredients

coralclub

Liposomal formula

The power of the ocean inside

Zero carbon footprint

"Second skin" effect\*
